FUNSTON IS ADVISED OF MEX. MOVES

**20,000 DE FACTO WILL
HUNT FOR VILLA
BANDITS.**

CONDITIONS ALL RIGHT

**WASHINGTON IS IN NO
HASTE TO REPLY TO
CARRANZA.**

WASHINGTON, June 2.—Major General Funston reported today that about 20,000 Carranza troops mobilized in the vicinity of Chihuahua City were being disposed apparently for an active campaign against bandits over a territory extending five hundred miles from Madera to Ojinaga. He feels no uneasiness over their movements, Secretary Baker said.

General Trevino, commanding the Chihuahua City forces, has given orders that all foreigners be treated with consideration and that any soldiers guilty of molesting an American or other foreigner, shall be summarily dealt with. The distribution of Carranza forces is given by General Funston as follows:

Four thousand infantry at Chihuahua City; 2,000 at Ojinaga; 2,000 south of Chihuahua City; 5,000 in the vicinity of Madera, and the remainder divided into smaller commands, being disposed over the territory described, and into the Big Bend country.

Secretary Baker said General Funston had secured reliable information concerning the Carranza troops and found no entrenchments or barbed wire entanglements constructed.

A week or more will be taken by administration officials to frame a reply to General Carranza's note threatening war if American troops are retained in Mexico, it was said today. President Wilson was out of the city and no active preparations were being made to draw an answer. The usual cabinet meeting was cancelled, since the president was not to return until late today from Annapolis, where he went to attend commencement exercises at the naval academy.

Army officers today looked for a report from General Pershing on his conference yesterday at Colonia Dublan with General Gaviarra, Carranza's military commander in Northern Chihuahua. The meeting was brief and it is assumed only questions of co-operation in troop movements were discussed. General Pershing described the conference as "very satisfactory," according to unofficial reports.

The war department's plans for maintaining General Pershing's column in Mexico were unchanged.

MOTOR TRUCKS ARRIVE.

Supplies will be forwarded at Once into Mexico.

COLUMBUS, N. M., June 2.—The quartermaster's department here unloaded today two four wheel driven motor trucks of special design for field work. Each truck is a complete machine shop on wheels, possessing all the necessary appliances of a modern machine shop and garage. Some of the features of these vehicles are lathes, drills, forges, anvils and a welding outfit. These especially constructed trucks will ply between Palomas and General Pershing's advance base, thus obviating the necessity for broken down motor trucks to be dragged to Columbus for repairs.

Efforts are being made to dispatch a great quantity of reserve sustenance supplies and forage to the expeditionary column before the rainy season set in. Big motor supply tractors with caterpillar wheels are now being tested here at the base to decide their availability for use during the rainy season.

Reports are current here that a mutiny of Carranza troops at Villa Ahumada, one hundred miles south of Juarez to the place last night during which looting figured.

STOCK BROKER IS SUPPOSED DROWNED

DULUTH, Minn., June 2.—Police with grappling hooks, today dragged St. Louis bay, Duluth, in the hope of finding the body of R. G. Enloe, 30 years of age, New York, who disappeared from the pleasure yacht Rambler here Wednesday night, after telling Kenneth P. Van Riper, owner of the yacht, that he wanted some night air. Mr. Van Riper believes Enloe started out in a canoe, which was found empty on Thursday morning. Telegrams here awaiting him, indicate that he is a member of the New York stock exchange.

EIGHT ON ORPET JURY AFTER SIXTEEN DAYS

WAUKEGAN, Ill., June 2.—The
opening of court today found the
jury in the trial of W. H. Orpet for
murder nearly in completion. It
was at the end of last week, when
eight jurors had been sworn for
service. The trial has been in pro-
gress for sixteen days, during which
time more than 800 prospective
jurors have been examined. A fur-
ther panel of fifty men has been
summoned for today, as yesterday's
examination exhausted the last sum-
moned without resulting in the ac-
ceptance of a single juror.

FOURTH DISTRICT RACE A BIG TOPIC AT OHIO MEETING

State Convention Gather-
ing Marked by Num-
erous "Grape Vines."

CUNNINGHAM STICKS

Refuses to Withdraw at
the Suggestion of Jeff
Coombs' Boom.

POLITICAL EVENTS TODAY.

Michigan State Convention
at Detroit.
Democratic Committee of Ar-
rangements meets at St. Louis.
Virginia State Democratic
Convention, at Roanoke.
California delegation starts
for the Chicago convention.

By David W. Bowman.

Fourth district politics turned out
to be the feature of the state con-
vention gathering at Columbus yester-
day. Not that it actually entered
into the deliberations of the democ-
rats of the 88 counties, but be-
cause in the Neil lobby, where scores
of congressmen and several United
States senators have been made and
unmade, the Fourth Ohio predom-
inated in representatives, activity
and interest.

Cunningham, Goeke, Studevant,
Riddle and Coombs were on the
job. Hussey and Hunt may have
been there, but not very long if at
all. In every county delegation
there were politicians with some
sort of a deal ready to spring.
Rumors of the most impossible na-
ture circulated. Grapevines grew,
flourished and withered within a
hour. Only two stories, however,
received enough attention to be-
come the common gossip of the dis-
trict delegation.

The first was to the effect that the
Goeke forces were ready to con-
centrate on Coombs as a compro-
mise candidate, subject to the with-
drawal of the other candidates. This
was soon followed by the report that
Cunningham could not be budged,
despite the declaration that the rest
were willing. This bears out the
belief now common, that "Dick" is
in the fight to a finish, "intends to
sit tight and laugh at his opposition
and the man who dislodges him will
need blasting powder."

Coombs was positive in one thing
—he will stand as a compromise
candidate, but he will not enter a
free-for-all. His friends in Miami,
too, said that Jeff is too good a man
to be banged up in an eight-or-ten-
cornered fight. The Manix boom
got started once, but as George was
not on the field his adherents evi-
dently decided to wait until they
had him handy for display. Then
Studevant started out to "meet the
boys," calling attention to his recent
statement in the Sidney News to the
fact that he is running a free lance
and not as the candidate of another.
Riddle was ill, but not too ill to
discuss "crops" with rural delegates.
About this time Ad Meeker, of
Greenville, arrived with a couple of
mysterious references to the next
few days, thereby messing up the
situation a little more.

Cunningham and Goeke, mean-
while, were shaking hands like a
governor at a cornerstone-laying.
The former circulated about with a
defiant expression, occasionally re-
marking that he was ready to meet
all comers. "The more the mer-
rier" was his reception of the rum-
or.

THREE KILLED WHEN TRAIN GOES DOWN AS BRIDGE SINKS

Fifteen Others Injured on
Rock Island Line in
Iowa.

Tornado Sweeps Cars From Track on Wabash Road in Illinois.

CHICAGO, June 2.—At the gen-
eral offices of the Rock Island road
this afternoon the casualties of the
wreck at Packard, Iowa, of Chi-
cago, Minneapolis train, No. 19,
were placed at three dead, three
missing, fifteen injured, all but two
slightly.

PACKARD, Iowa, June 2.—Two
women were killed and ten persons
were injured as the result of the
collapse of the bridge over Cold-
water creek near here early today
under the weight of the northbound
passenger train No. 19 on the
Chicago, Rock Island and Pacific.
In addition to the two dead, seven
persons are missing and are believed
to be dead, either by drowning or as
the result of their injuries.

BLOOMINGTON, Ill., June 2.—
A tornado blew the Chicago-St.
Louis fast mail train number 17,
on the Wabash railroad from the
tracks near Saintemin, Ill., early to-
day, injuring 18 persons, one prob-
ably fatally. The accident occurred
in a deep cut which kept the cars
from overturning and probably pre-
venting heavy loss of life.

The combination, baggage and
smoking car and four coaches were
blown from the track. A Pullman
sleeper crashed through the smok-
ing car, tearing it to pieces. It
was in the smoking car that the
most injuries to passengers oc-
curred.

A special train was made up at
Decatur, and carrying doctors and
nurses, rushed to the scene.

on a steam engine. The governor
blew off and he was blown about 20
feet.

DESPOUDENT, IN ILL HEALTH, AGED MAN ENDS LIFE

W. A. Miller's Daughter
Finds Body Hanging
From Porch.

A GARFORD EMPLOYEE

Absence of Wife Added to
Grief of the Sick
Man.

Burdened by ill health and the
fact that his wife was absent from
him, on a visit to relatives in El-
wood, Ind., William A. Miller, 60
years of age, laborer at the Gar-
ford Manufacturing company, south
of Chicago, ended his life this morn-
ing by hanging. He was discovered
at 5 o'clock, hanging from a rafter
in the woodshed, just back of the
rear porch at the home of his daugh-
ter, Mrs. Leona Graver, of 1081
Hughes avenue, by her. A clothes-
line had been used by Miller to
form the noose.

Miller was in the habit of rising
to leave at an early hour for his
work at the factory. When his
daughter arose to prepare breakfast,
she could not find her father. When
she sought his whereabouts, his dead
body greeted her as she ran from
the kitchen door to the rear porch.
Life had fled.

At no time could Miller not have
released himself, had he wished to
do so, after he had taken the fatal
step. There was about five inches
of slack space in the rope.
The daughter, who was heart-
broken at the discovery, awakened
neighbors. The Whitely mortuary
was notified and Undertaker Wil-
liam Hooks of that firm, was the
one who cut down the body of Mil-
ler from its place of hanging.

The body was removed to the
Whitely mortuary in East North
street. The wife was notified and
will reach Lima at a late hour this
afternoon. Miller had but the one
child with whom he had lived since
they came to Lima to reside.
Funeral arrangements will be an-
nounced on the arrival of the wife
in Lima.

BRANDEIS WILL GO ON BENCH JUNE 12

Only One Democrat in Sen-
ate Votes Against His
Confirmation.

WASHINGTON, June 2.—Louis
D. Brandeis, Boston lawyer, will be
sworn in as a member of the su-
preme court probably June 12. The
senate yesterday confirmed Mr.
Brandeis' nomination by a vote of
47 to 22.

With one exception, senate democ-
rats voted solidly for confirmation.
The exception was Senator New-
lands, of Nevada, who in a formal
statement said his action was based
on the ground that he did not re-
gard Mr. Brandeis as a man of ju-
dicial temperament. Three repub-
licans—LaFollette, Norris and
Poindexter—voted for confirmation.
Mr. Brandeis is the first Jew to
be elevated to the highest tribunal
in the land. He succeeds the late
Associate Justice Lamar, of Georgia.
The fight over his confirmation was
one of the bitterest in the senate's
history.

COMMONS KECKLES KITCHENER

War Lord of Britain is on Grill in

LONDON, June 2.—Earl Kitch-

the unique experience of being
heckled by parliamentary critics of
the war office. Complying with the
promise made on his behalf in the
house of commons by the parlia-
mentary under-secretary for war,
Harold J. Tennant, in response to
complaints of members that they
had not had opportunity to question
the secretary for war, the famous
general went to one of the commi-
tee rooms of the house, prepared to
make a statement on the conduct
of the war and reply to questions.

The war secretary was accom-
panied by several members of his
staff and the political heads of the
war office. He faced some 300 mem-
bers including what are known as
the "ginger groups," composed of
men who demand more vigorous
prosecution of the war.

BERLIN REPORTS FIGHT

**KITCHENER, THE WAR
LORD, IS HECKLED
IN COMMONS.**

LONDON, June 2.—The Brit-
ish admiralty announced today
that a battle had occurred in
the North sea between the Brit-
ish and German fleets in the
course of which a number of
German warships were sunk.

The announcement says two
German battle cruisers were
sunk and two German light
cruisers were disabled and prob-
ably sunk.

The British destroyers Tipper-
ary, Turbulent, Fortune, Spar-
rowhawk and Ardent were lost
and six others have not yet been
accounted for. The admiralty an-
nouncement says no British bat-
tleships or light cruisers were
sunk.

BERLIN, June 2.—Germany's
high sea fleet met the main part
of the British fleet in battle in the
northwestern section of the North
sea on May 31. In the heavy at-
tack the British fleet was de-
feated and the German fleet was
said by the German admiralty to
have sunk five British battle cruisers,
British battle cruisers Queen Mary
and Indefatigable, two armored
cruisers, believed to be of the
Achilles type and a large number
of warships of smaller tonnage.
Several other British battleships are
reported to have been damaged,
including the battleship Marlborough,
which was struck by a torpedo.

The German losses are announced
as the battleship Pommern, sunk by
a torpedo, the cruiser Wiesbaden,
sent to the bottom by gun-fire, the
protected cruiser Frauenlob report-
ed missing and several torpedo boats
which did not return to port.

The German admiralty statement
adds that by observation it was es-
tablished that a large number of
British battleships suffered damage
from the fire of the German big
ships and attacks of the torpedo
boat flotilla.

The admiralty statement also de-
clares that the British battleship
Marlborough was hit by a torpedo,
this being confirmed by the prison-
ers rescued. Several of the Ger-
man ships rescued parts of the crews
of the British ships which were
sunk, they including, it is expected,
two men from the Indefatigable, the
only survivors from that ship.

On the German side the small
cruiser Wiesbaden was sunk by gun-
fire and the Pommern was sent to
the bottom by a torpedo. The fate
of the Frauenlob is not known and
some torpedo boats did not return.
The German high sea fleet, the
statement adds, returned to port
June 1.

FINAL PLANS FOR THE PREPAREDNESS PARADE GIVEN OUT

Ten Divisions of Procession Are Assigned Their Places.

Film Company Will Take Movie Picture of the Entire Affair.

The committee in charge of organization of the different divisions of the Preparedness Parade have arranged the following locations for the ten different divisions: Military and semi-military, on the south side of Wayne street with the head resting on Main, unattached division, on the east side of Pierce street with the head resting on Wayne street; schools, on the west side of pierce street with the head resting on Wayne street; fraternal, on the west side of West street, with the head resting on Wayne street, business men, on the east side of Elizabeth street with the head resting on Wayne; professional men, on the west side of Elizabeth street with the head resting on Wayne; agricultural, on the north side of East Wayne street with the head resting on Main, and the county and city employe division, on the south side of East Wayne street with the head resting on Main.

Universal Film Company, of Indianapolis will send a staff of moving picture men to this city to take pictures of the parade. The fact that these scenes will be shown all over the United States is an added attraction to the affair.

The G. A. R. posts of Celina, Cridersville, Wapakoneta, Spencer, and Ada will march in the first division with the local post of the organization, according to a report received from Captain Hall last night.

Following the announcement that 60 inmates of the children's home desired to take part in the parade the Western Ohio R. R. company agreed to furnish free transportation to Lima for this division. Frank Harman will furnish free flags to this division.

To avoid confusion in mobilization of the industrial division of the parade, all of the manufacturing companies of the city have been assigned positions which they are to take preparatory to falling in line with the main body. This division will form four abreast on the east side of West street, with the head resting on Wayne street and extending as far south as necessary. The order of formation of this division is as follows:

1. Locomotive works and band.
2. Gramm-Bernstein company.
3. Garford Motor company.
4. Ohio Steel Foundry
5. Solar Refinery.
6. Buckeye Pipe Line.
7. Ohio Oil company.

The Lima Trust company has filed suit for \$12,463.33 from Fred F. Stullon, Glada G. Stullon and Caroline Heap. To secure payment of notes aggregating the above, the bank was given a mortgage on 158 acres of land in Allen county.

John C. Parker has since secured this real estate. The People's bank of Wapakoneta, the Kalb-Thrift company of Lima, R. A. Weadock and I. E. Baber claim to have an interest in the real estate and with Parker's wife, Isora, are made defendants.

Mortgage on the land is ordered foreclosed to secure payment of the judgment, if not otherwise paid.

The Stullons and Parkers now reside in Franklin county, Baber lives in Allen, and Caroline Heap in Auglaize county.

CIVIC LEAGUE MEETING.

Meeting will be held at Savings building, 8 o'clock to a evening. A good attendance is desired as plans for park play grounds will be discussed.

SUIT FOR DIVORCE.

Mrs. Beattie Botley has filed suit for divorce from William Botley on the grounds of willful absence and gross neglect of duty. She does not know the whereabouts of Botley and service will be by publication.

FOURTH DISTRICT RACE A BIG TOPIC AT OHIO MEETING

(Continue from page one)

ors of new entrants. This would indicate that he had his organization perfected and was assured of substantial returns in spite of favorite sons in various counties. Goeke strode hither and yon, smiling blandly and incidentally managing to land on the resolutions committee of the convention. Somebody started a boom for J. Henry for attorney-general—to get him out of the congressional fight, perhaps—and at once the editor of a party paper in the lower end of the district sized up the boom as a movement to offset the Hoskins boiler-plate boom for the same job. Goeke and Sam used to be partners, but split.

Further interest was injected into the gathering by the attempt of Bill Hoffer, of Wapakoneta, to start a Richie boom. His idea was individual inscription for the "Lima Jurist," but subsequent examination proves that the editor who resides by the placid Auglaize was not authorized by Richie to start a boom.

Darke county was on the defensive, rather than on the offensive. All she asked the congressional aspirants to do—and they all courted Darke, which is always difficult to judge and often productive of surprise—was to stay out of the county fights. It appears that the leaders want to force all congressional candidates to refrain from slate-making, even if they must club their adherents or shut off the expense money if necessary. This is reported to be an effort to settle a committee dispute.

In the district caucus for the selection of committeemen for the convention, harmony was the prevailing characteristic. This may in part be due to the fact that there is little worth worrying about in the state convention of today, or it might be traced to the fact that the delegations were anxious to get out of the Virginia ballroom to the more lively Neil. But the smooth and affable manner in which State Central Committeeman Val Lee, who presided, slipped around and asked each county chairman what he wanted, was the chief reason for absence of discord.

E. A. Macbeth was seated in the secretary's chair and the organization made permanent. F. M. Willdermuth, of Shelby, was awarded the office of vice president of the convention—every district gets one. Darke placed Dr. W. A. Leyer on the credentials committee. Former Senator Stephen D. Crites was put up for the permanent organization committee by Allen, while Mercer tried to elect Emmet Mannix, of Fort Recovery. Seeing on the program that Allen had 13 votes to Mercer 7, Mannix withdrew and was immediately made a member of the committee on rules and order of business. Auglaize presented J. Henry, unopposed, and the latter then placed Lam Neely, of St. Marys, in nomination for the office of presidential elector. This gave a job to everybody but Miami, but as Miami had the Coombe boom ready to uncork a little later on the delegation did not complain.

Features of the convention were few. The ovations handed to Baker, Pomerene and Cox offered the only opportunities for expression of sentiment. The war secretary was a surprise to many, and those who were already familiar with his ability say he is getting better daily. As a key-note he handed the convention just what was wanted, diving into the critics of the Wilson administration without hesitating about anybody's toes. Those who saw him in action at Dayton in 1910, when he made one-tenth look like one-third on the endorsement of a senatorial candidate in the face of Harman's wishes, can realize what a little scrapper he is when aroused.

Pomerene's reception killed the courage of those who had planned to oppose him. It is known that his enemies, including some of the most prominent members of the party in the state, were ready to avenge as many postoffice turndowns from the fearless Cantonian, but when the convention began to cheer for Atlee the vengeance-seekers lost their nerve. It would have been political hari-kiri to fly in the face of that crowd.

Cox was called for as soon as the temporary chairman finished his speech. As expected in all quarters of the state, the Dayton editor announced his candidacy and declared his intention of filing a petition in a day or two. His appearance was met with cheers, and following the example of two men on the stage the entire body arose as he entered.

Another feature of the convention was the postponement of the platform until the state executive and legislative tickets shall have been chosen. This was the unanimous report of the resolutions committee, headed by National Committeeman Ed. H. Moore of Youngstown. All the committee offered was passed by the convention without a dissent, voice—endorsements of Wilson and Pomerene, endorsements of the administrations of Harman and Cox and a slam at Willis.

Mayor S. S. Scranton of Celina has withdrawn from the race for the state senatorial nomination, according to advice from Mercer county. This leaves in the field Senator William Behne, of Bryan, who seeks a second term, former Senator Thomas M. Hermy, of Spencer, and Representative George W. Holl of New Knoxville, Auglaize county.

Get your petitions in early or

you will have to wait in line," is the ultimatum of Clerk Arthur J. Morris of the board of elections. Not only will the candidates save trouble for themselves and for him, he says, but they might gain votes by being considered prompt.

"It is a known fact," says the clerk, "that there are candidates waiting to see if another man files for a job before filing their own papers. They want to see who will file Monday or Tuesday. If this keeps up there will be so many candidates in here Wednesday and Thursday that I'll have to line them up like fans waiting to get into a ball game. And I'll have to take a lot of time with each one, too, for the fee system makes us keep books and write receipts. Better get in early and save trouble."

Ira F. Clem has filed his papers as a candidate for the job of county clerk. His signers are A. D. Neuman, Lima; John W. Red, Marion township; Samuel Hilly, Richland township; C. C. Arnold, Jackson township; E. V. Ridenour, German township, and P. F. Hardin, Perry township.

W. W. Craig and James L. Heath have filed their petitions for a second term as commissioners. The former's republicanism is attested by Harry E. Simonton, J. I. Heffner, Ray John, H. T. Durnbaugh, all of Lima, M. M. Murray of Bluffton and S. M. Fletcher of German township. Heath is backed by John Durnbaugh, Murray, Fletcher, W. B. Kirk and S. W. Long of West Cairo.

Auditor T. A. Welsh, seeking a second term, is vouched for by Joseph Cassidy and G. O. Shaffer, Lima, C. A. Rusler, Shawnee township, J. A. Hillel and Jacob Watt, Lafayette.

Harry L. Conn, of Van Wert, has announced his candidacy for the democratic nomination for the post or judge of the Appellate court, to succeed Judge James E. Robinson. His opponents are Kent W. Hughes of Lima, Ben H. Meek of Bucyrus, and Senator James D. Johnson of Celina.

Former Mayor J. K. Williams, of Delphos, is the third entry in the race for the democratic nomination for county commissioner. This is his first dip into county political circles as a candidate, although he has always been an active worker in Marion township. He was chosen to fill an unexpired term as executive of the county-line city, and subsequently elected three times, making a total of six and a half years.

TO SHOOT ALL DOGS FOUND UNMUZZLED

Police Will Carry Out Orders of Mayor to the Letter.

Police Chief McKinney stated today that the proclamation of Mayor B. H. Simpson would be carried out to the letter in regard to shooting unmuzzled dogs and those running at large on streets of the city.

McKinney is of the opinion that in order to dispatch the animals which at the present time may be afflicted with rabies, it will be necessary to make a tour of the city with armed patrolmen and kill all dogs which have not been taken care of in the proper manner.

Several calls were received by the police department this morning informing the officer in charge that dogs afflicted with hydrophobia were lurking in the neighborhood. However, only in one case was the patrolman who answered the call able to find the dog as reported.

The decision of the mayor in regard to muzzling dogs was reached last night following a conference with Health Officer A. L. Jones. The receipt of official information verifying the report that the dog which attacked the Maus child had hydrophobia caused the head of the health department to take immediate action on the matter.

TWO FACE BINGLES.

The west side fire department was called to the home of J. S. Boop, of 1107 West North street, this morning, to extinguish a blaze in the roof of the house. Little damage was done.

The central fire department battled for half an hour this afternoon with a blaze which ignited the dump at Elm and Jackson street bridge. It was necessary to lay a line of hose to the corner of Linden and Pine street.

DROVE 22 MILES, IN STORM, TO LIMA; J. E. YOUNG, ROUNDHOUSE, O. MAKES TRIP TO GET TANLAC

"My trouble was nervousness and I was so nervous that I could hardly sleep until I took Tanlac, the new tonic, that is recommended by the Chas. M. Hunter Drug Co., Lima," said Mr. J. E. Young.

Mr. Young runs a livery stable at Roundhouse, O., and he drove 22 miles to Lima on one of the most stormy days of the year to get Tanlac.

"My hands and feet would get cold and it seemed like I could not get them warm. I would chill and shiver until I thought I was going to be palsied. My head and arms would twitch."

"I was very constipated. I could get nothing to relieve this condition with any degree of permanency until I took Tanlac. Everything else seemed to lose its effect after I had taken two or three doses."

"My system became so run down that I was much alarmed."

"Tanlac has been a great relief. I go to bed and sleep fine. I am not troubled with cold hands and feet and do not have the twitching sensations and in fact my nerves feel as steady as the Statue of Liberty."

"I am not constipated now and take pleasure in recommending Tanlac."

Mr. Young is the type and character of thousands of men and women who are now endorsing Tanlac.

AT CHICAGO

Five days remain before the Republican party of the United States, in convention assembled, will open the initial session at Chicago. There are two problems facing that gathering, and those who stand high in party councils dread the approach of the roll call. An issue must be discovered and an available candidate located. Pray where is either?

The G. O. P. can nominate either an unknown dark horse or a figure well known in national affairs. If it is the former he must be prepared to face the cry of "inexperience". If it is the latter he must be free from any stain on his personal character, unidentified with any of the many scandals which have characterized the long G. O. P. regime between Cleveland and Wilson, unassailable either as a radical or a reactionary, wealthy enough to pay for the honor, brilliant enough to make a speech, docile enough to be led and popular enough to carry his home state. Where is that candidate?

The nominee of the Republican party must not be from the West, for the nation has never taken kindly to men from beyond the Mississippi. He must be from New England, New York or the Central North. If it is New England, he must not be a manufacturer, for that will brand him as a protectionist. He dare not be a silk-stocking aristocrat, for that will blast his hopes with Kansas. If he is from New York, he must not be a Wall Street protégé, a Barnes man, a Depew favorite or a Whitman sympathizer. If he is from Pennsylvania he must be free from the strings of Penrose. If he hails from the Northern Mississippi valley he must be a favorite at home—and what Republican of prominence in the Northern Mississippi valley is a favorite at home? Look over the candidates. Burton feared defeat in 1914 and refused to run. Harding was far more than victorious. Some prophet, this Burton person, Sherman? Lawrence lost in the last primary in Chicago. LaFollette? Dead one in Wisconsin, and every one but Robert knows it. Any other entries?

And whenever the G. O. P. gets tired of trying to find a candidate it can turn to the problem of making nothing look like a platform. It can try to harmonize Wall Street and Kansas. Roosevelt and Taft, protection and low tariff, militarism and peace-at-any-price, and those who call Wilson too mild with those who call the administration too bellicose. The pleasing pastimes of candidate hunting and platform hunting may be alternated for relief.

The big show starts Wednesday. Teddy da Hooge will be there with Perkins' cheque book and the Harvester Trust Chicago Tribune to back him up. He will have enough of the old time fire to enliven a few thousand (paid) shimmers in the galleries, and the Republican party knows full well it must take Teddy on as nominee or face another Progressive ticket as in 1912. And he knows the party knows it. Therefore the question becomes: Will the Republicans go down with Roosevelt on a third term platform, or with Teddy splitting the party as before?

We'll all know in a week.

STATE CONVENTIONS

There are many advantages to the primary system, and, as The Times-Democrat has frequently indicated, many flaws. We have many undesirable things in politics for which the primary is to blame, but the loss of the picturesque old state nominating convention, with its deals, chicanery and fights, is one of the greatest.

Under the new law the convention amounts to so little that only the professional politicians care

about it. That offers an opportunity for fixing. One faction of a party can grab the delegates by default because nobody cares who has them. After that the resolutions, which contain of interest, but in these resolutions can be injected campaign material unfair to a free and open contest for various offices between that of governor and the supreme court. When the delegates have been lined up in a snap primary by a ten percent vote it is ridiculous to stamp the opinion of the convention as the voice of the party at large. To ignore this obvious axiom is to bring repudiation at the polls, in the election if not at the primary.

Fortunately the Democratic state convention at Columbus yesterday was free from dissension. There was a unanimity and party harmony quite the reverse of the old-time wrangle. As the platform-making was postponed there was no favoritism. All were for the Democratic party in state and nation. But the spectacle of a lively row, the thrill of a stampede for a dark horse, the suspense of awaiting the total on a close roll call, the excitement involved in springing a new candidate—these were lacking. The primary has removed the interest from a convention.

American leadership in world finance and commerce, an American merchant marine, an American system of rural credits, an American wage standard 20 per cent above the highest Republican level, and American peace and prosperity which make this republic the envy of nations—is Democracy's practical program of Americanism as against the G. O. P. talk unsupported by deeds.

The wealth of the United States for 1916 is estimated at \$228,000,000,000. This is not only \$40,000,000,000 greater than the Republican maximum reached in 1912, but it exceeds the combined wealth of Great Britain, Germany and France. The "New Freedom" of Democratic law and administration therefore expresses itself not only in fair play and better conditions to the average man, but in the greater productive power of the nation as a whole.

There was a time when every magazine in the country, a week before the national conventions, would predict the nomination of some man or other. But in this week's magazines you will find nothing but inches given to prophetic statements regarding the Chicago meeting.

Within a week the Republican "leaders" will discover what all political manipulators will ultimately find out: it is easy to ram a nominee down the throat of the party, but the party can't be made to digest him. A forced nomination means nothing later on.

At Columbus yesterday there were cheers for Harmon and cheers for Cox and cheers for Penrose. After the latter, by the way, a few disappointed office seekers charged their minds about starting an anti-Penrose demonstration.

How many of the men who expect to march tomorrow would fall in line if the nation called for volunteers? All, let us hope, but there is always the man who does his fighting a long way from the border.

The old-fashioned politician who could run the party also is disappearing. The family is now included in the running.

Whatever became of the man who took Roosevelt seriously?

GOOD EVENING: Fall in line for preparedness parade.

NEW NOTES FROM MOVIELAND

By DAISY DEAN

BOBBY CONNOLLY, who enjoys the distinction of being the highest paid star for his age in the films, says it is lots of fun to act in pictures, but sometimes you get tired and wish you could go to school and play in the afternoon like other children. Yes, Bobby goes to school, or rather school comes to Bobby, for he has a teacher who comes to the house and teaches him the three Rs and other things. Bobby doesn't think it as much fun as going to school because at school you can have fun while the others are reciting. "When there's only one pupil you can't fool, because teacher can watch you all the time," says Bobby.

When Bobby isn't acting or studying he goes out in the "vacant lot" just like the other healthy children and plays ball, marbles and raggy. He and his sister Helen have lots of fun at the Vitagraph studio in between scenes playing with Gasoline, the studio cat, the white mouse and the dog. Yes, and even grizzly bears.

"Civilization" is Super Play. "Civilization," Thomas H. Ince's big spectacular film play, has just been released in New York. The producers describe it as an argument against war. "However," they hasten to add, "it is not against preparedness, but is in the nature of an appeal to the mothers of men."

The spectacle includes pictures of battleships in action. A United States warship fired real projectiles at a ship bought for the purpose, and the powder burned in the several battle scenes cost the producers \$16,000.

Edna Mayo in "The Return of Eve." "The Return of Eve," in five acts, is the vehicle in which Miss Mayo will next appear in feature productions.

It is the story of the Garden of Eden brought down to date. A boy and girl brought up on a desert island, finally taste civilized life. It disgusts them, but when they go back to their island they find that they have eaten of the fruit of the

tree of knowledge and their Eden is an Eden no longer. They are barred as effectually as were Adam and Eve by the flaming sword.

Mary Garden, celebrated singer, has been pursued by movie producers since her recent arrival in New York. But she has not yet signed a contract. Geraldine Farrar's success in pictures has encouraged producers to hope for a like success in Mary Garden.

Viola Dana, Metro star, can stand on her hands, we are now assured. Also she can box and nearly every day puts on the gloves with her sister, Leonia.

HEALTHHINTS

BE SURE YOUR SCREENS DON'T NEED REPAIRS

This is the time of the year to scrutinize your screens. Screens are necessary to keep flies out of the house, of course.

But be sure your screens fit tightly, that they have no holes in them and that they are well repaired all over.

It is surprising what a little elbow grease, paint and turpentine, properly mixed, will do in keeping your screens fly proof and weather proof.

Just look over your bunch of screens. See that the woodwork is not rickety, paintless and weather-beaten, and the wire netting rusty and rotted out here and there.

Such screens make your windows look bad. They discredit the neatness and thrift of the housekeeper. The first thing you know the worn-out spot invites the entrance of flies, mosquitoes and bugs and you might as well have no protection at all.

Screens are like collars and cuffs. As you would not think of wearing dirty, ragged linen on your neck

and wrists, so your house should, intended for flies are dangerous to not be obliged to display dirty, torn, children and pet animals.

The self-respect of a tenant is reflected in the good repair of his screens. If, in spite of the adequate protection for your windows and doorways, flies get in, then, of course, the swatter is a great help in banishing intruders. So are fly traps and sticky paper.

Dishes of poisoned milk or food

Indigestion and Constipation.

"When living in Syracuse, N. Y., about two years ago I took two bottles of Chamberlain's Tablets and they cured me of indigestion and constipation after I had suffered for months with these disorders," writes Mrs. Charles Lloyd, Baidwinville, N. Y. Obtainable everywhere.

TOLEDO UNIVERSITY KEEPS DR. NEARING

Radical Professor is Re-engaged by Trustees in Secret Session.

TOLEDO, O., June 2.—Dr. Scott Nearing, whose dismissal from the faculty of the University of Pennsylvania attracted national attention, has been re-engaged for another year by the trustees of Toledo University. It transpired today that the trustees held a meeting, of which no public notice was given, in a local hotel March 30 and adopted a resolution to re-engage practically the entire faculty, including Dr. Nearing.

Dr. Nearing said this morning that his contract had been signed. The fact that such action had been taken was kept secret because of anticipated opposition to tax levy for support of the university, which must be approved by the city council soon.

Recently local G. A. R. and Sons of the American Revolution organizations adopted resolutions declaring that a speech which Dr. Nearing made a few weeks ago in Cincinnati, was unpatriotic.

Last night the Central Labor Union adopted resolutions endorsing

Dr. Nearing and declaring for his re-appointment. Investigation today brought out the facts of his secret re-appointment three months ago. OF COURSE NOT.

WASHINGTON, June 2.—When inquiry was made of Justice Hughes today whether Frank H. Hitchcock was representing him at Chicago, the justice's secretary, Lawrence H. Green, made the following authorized statement: "It is perfectly well understood that Justice Hughes has no representative."

DANGERS OF DRAFT.
Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuritis, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuritis or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c at your druggist.

ELKS INITIATE CLASS OF FIVE MEMBERS

The mysteries of the Elks' lodge were unfolded last night to five new members. They are: Ralph MacKenzie, LaVern Jensen, Daniel S. Ball, Louis Rothstein and John T. Tobie, all of this city, and F. W. Steinhagen of Saginaw, Michigan. More than 300 members of the order witnessed the impressive initiatory exercises, which were conducted under the supervision of Exalted Ruler H. O. Bentley and the entire staff of officers.

Before the initiatory work John W. Beall and one of the candidates presented a burlesque sketch on initiation work. Immediately following the initiation of the candidates a fish fry was held in the banquet hall. Short talks were made by Harry O. Bentley, N. W. Cunningham, S. D. Cites and each of the candidates.

DIES AT STATE HOSPITAL.

Charles Walters, 36 years old, an inmate of the Lima State hospital, died last night at the institution, north of the city. He was received here from Longview, and was a resident of Cincinnati, where he worked as a machinist before his health failed.

WEATHER—Thunder showers this afternoon and tonight. Cooler tonight. Saturday fair and cooler.

YOUR FACE

PUT ASIDE your vanity, take out your critical eye, put it on, and look at your face in a good truthful mirror. Shocking, isn't it? You didn't realize your faults showed so plainly did you? But there they are as bright as if they were painted on a sign and thrown across your face. They look out of your eye, they sit on your mouth, they lift your chin, they shadow your forehead. They are there every one of them, and the good along with the bad, all sitting in plain sight on your face. And everybody can see your face, so every body knows your character. Alas. We will take better care of our thoughts after this, won't we? Haven't you ever seen a face transformed with a smile, or made beautiful with the glow of an inspiration? Or haven't you seen a beautiful face ugly with the selfishness of the soul behind it? All women desire to be beautiful, but so few realize that beauty comes from within and not without. Our thoughts, which prompt our actions, make us beautiful, and are the only truthful and reliable beauty doctors in the world. Pounds of cold cream, and a massuase cannot give you real beauty. Your pretty face will be but a mask that sooner or later will drop to show the soul of you, dwarfed and hideous. Old age holds no terrors for the women with the beautiful soul, for beauty of her sort is enhanced with the years, and it shines through her eyes, smiles on her lips, and touches her brow with a hand of living beauty.

Miss Susan Mary Swisher of West Market street, celebrated her sixteenth birthday this afternoon with a party at her home. Games, music and contests made the afternoon a delight for the guests who were Ruth Vogel, Mary Leete, Corrine Baker, Caroline Wilson, Meriam Kammerer, Dorothy Harris, Olive and Constance Meyer, Elizabeth Harrot, James Carnes, Anna Palmer, Doris Eastman, Robert Eastman, and Josephine Pierce. Mrs. Swisher, mother of the hostess, assisted by Mrs. Werner Vogel, Mrs. A. S. Kniely and Mrs. J. B. Whitman, served delicious refreshments.

Mrs. Nora Warner entertained the members of the I. D. K. club at its last meeting until next fall yesterday afternoon at her home. Officers for the coming year were elected as follows: President, Mrs. W. H. Railing; secretary, Mrs. Frank Lyle; treasurer, Mrs. H. S. Cauling, and recording secretary, Mrs. O. L. Campbell. All members were present with the exception of two. Guests at the meeting other than the club members were Mrs. John Malloy, Mrs. John Ryan, and Mrs. Amos Michling. The hostess assisted by Mrs. C. T. Smith served a delectable two-course lunch, after which the club adjourned.

Bostonians, says the Christian Science Monitor, who put truth above flattery will not be pleased with the decision to make the coming official prepared history of the city one that excludes "facts" that are facts. In the past, as at present, the good and bad blended, and there is no intellectual piety in trying to make the record otherwise. Civic loyalty calls for no such suppression, and there are experts on such disputed issues more authoritative than the city's mayor.

HUNGARIAN GOULASH.
Two pounds of lean beef, cut in inch squares. One tablespoon of lard, put in a pot until hot. One onion, cut in pieces and fried until brown. Add the meat to the lard and onion, then add two tablespoons of vinegar and a half cup of water.

with a little salt and black and red pepper. Cover the pot and stew until tender, adding a little water as needed.

Mrs. Philip Albert was hostess yesterday afternoon of the last meeting of the Irene club. Plans for a picnic to be held at Scott's Crossing were discussed, along with the needlework which occupied the hours of the afternoon. Musical numbers were given by Mrs. E. J. Curtiss, Mrs. Lindeman and Mrs. Chandler. Refreshments were served by the hostess, assisted by Mrs. Albert Ruff and Mrs. Charles Rhein. Guests at the meeting were: Mrs. P. A. Kahle, Mrs. Henry Dulin, Mrs. Elmer Roberts, Mrs. E. A. Trabert, Mrs. H. Hildreth, Mrs. Irvin Brentlinger.

Miss Mary Johnson and Frederick George were united in marriage last evening at the home of the Rev. Father John Mizer, priest of the St. John's Catholic church. After the ceremony, which was witnessed by a number of the intimate friends and the immediate families of the young couple, a wedding supper was served in their home at the corner of Brice and Cole streets.

Music was the interesting topic of discussion and study at the meeting of the Foreign Missionary society of the Grace M. E. church which met at the church parlors yesterday afternoon. Mrs. Fred L. Butler, Mrs. G. A. Harrett and Mrs. Ransbottom contributed to the program.

Mrs. M. L. Harruff and Miss Ethel Haver returned recently from Oxford college at Oxford where they were the guests of Miss Irene Harruff, who is a senior student there. Miss Harruff gave a vocal recital, which according to reports, was one of unusual merit.

By MRS. EVA LEONARD Y

Ethel Will Treat Maids Differently if She Learns Anything by Experience
"I JUST RAN in a moment to see if you knew of a maid I could get," said Ethel Gordon as Nell Morton answered her ring.

"Maid? Well, I should say not!" laughed Nell. "I do not suppose there is one with in a radius of twenty miles. You are not looking for one, are you? I thought you had an ideal maid."

"Well, she is so ideal that she came walking in to the living room a half hour ago with her hat and coat on and her traveling bag in her hand. I asked her in blank astonishment where she was going, and she said 'Back to Milwaukee. I am lonely out here in the country!'"

"What did you say?" asked Nell. "I felt like telling her that was the most sensible thing I had ever heard her say. Instead, I looked hurt and asked, 'Are you going to leave me without any warning?'"

"She just looked right over my head as if I had been a child and said, 'I am doing as you would do under the circumstances; I am pleasing myself.' The idea of a maid talking like that to her mistress!" Ethel whirled with indignation. "Of course I would not keep her now on any terms."

"I suppose the girl has been lonely here away from all her friends, and a good girl need not wait long for a place to work nowadays; but that does not make it any less dishonorable to leave without warning," sympathized Nell.

"She has been acting queer for the last month," continued Ethel. "She will leave my clothes lying around on chairs all day and never hang them up. When my husband comes home he has not a place in the bedroom to sit," grumbled Ethel.

"I should always prefer to care for my own clothes, not matter how many maids I had," remarked Nell, looking at her neighbor in surprise. "Of course I could pick things up, but I am badly spoiled. Mother and the maid at home picked up after me till I forgot how to hang things up if I ever knew." She laughed over the matter as if it were a good joke. "The trouble began when I asked her to prepare the refreshments the night I had the Neighborhood club at the house. She seemed to think she had enough to do to

A date to play the Dayton women golfers at their own links was made yesterday by the Lima women for June 22. Dayton women were defeated yesterday in the match at the Shawnee country club, 15 up. Guests at the meeting other than the club members were Mrs. Lutman, Mrs. George Vogelgesang, Mrs. McVaine and Miss Harriet McVaine. Miss McVaine and Mrs. Lutman assisted the hostess in serving refreshments at the conclusion of the very pleasant afternoon.

National emblems and ferns were used to add attractiveness to the home of Mrs. C. O. Kimble, who entertained the members of the Wisteria club yesterday afternoon. Needlework was enjoyed by the members and at the close of the afternoon delicious refreshments were served by the hostess assisted by Mrs. J. H. Hamilton. The club will be entertained again in two weeks at the home of Mrs. J. L. Thomas, of South Main street.

Miss Lena Rudy returned yesterday from Beachwood school, Jenkintown, where she has been employed as a teacher during the past year.

HANDS UP!

Copyright 1916, by the McClure Newspaper Syndicate.

I HAD always tried to imagine Bear Cave and held up a whole company returning from location. As the men whom Jack had terrified with an unloaded, rusty old pistol were dressed and posing as outlaws themselves, Jack thought he had scored mightily and humorously.

I had told the people in the stagecoach this little episode, so when a masked man sprang to the heads of the horses as we rounded a bend in the mountain road and called "Hands up!" the five of us exchanged knowing glances and winked very broadly at each other. "Let's pretend we're frightened," I suggested. The four nodded assent, and then there came a very visible trembling of the knees on the part of the two tired business men, who, for once, were going to pretend they were actors.

"Suppose it's a real bandit," whispered the other girl to me, drawing a little closer to the command of "Hold up your hands!" The two tired business men tried awfully hard, pretending to be afraid, but I

could see a twinkle in the corner of their eyes even when the masked men went through their pockets and relieved them of their watches and small change.

When it came my turn, I was sure I recognized an actor whose love of practical jokes had made him the entertaining nuisance of the company. I started to make some compromising remark as to his identity, but a gruff voice which did not sound like Billy's ordered me to "shut up!"

In my purse, which he emptied, I did not have more than five or six dollars, but from the actor and his wife he secured quite a bit of jewelry. The joke was beginning to drag out to unnecessary lengths, and I noticed that the smile in the corners of the eyes of the two business men had died away and there were uncertain doubts making tell-tale lines around their mouths.

Then for the first time we noticed that the driver's face was ashen white and the muscles of his body were drawn taut with suspense. With the gun swung upon him, he was forced to open the mail bags, after emptying his pockets, which contained quite a few bills paid over to him when we had left Arrow Head Springs.

"This joke's gone pretty far," I said to myself, and then, like the rest of them, the fear came over me that perhaps, after all, we had made a mistake.

One by one we were forced to climb back into the coach and the driver was given orders to move on. With some gusto he cracked the long whip over the horses and the creaking stagecoach rolled on around the bend of the road.

For a few minutes we sat there and stared at each other, the silence broken only by the frightened sobs of the actor's wife. The two business men looked at each other rather sheepishly, but the actor laughed. "Slow up," he called to the driver. "That fellow will be back here in about five minutes. He certainly tried to pull a great joke on us, didn't he?"

And then the driver, between gasps for breath, told us that a posse had been searching the hills for weeks to catch that outlaw, one of the most desperate criminals in the country.

We never saw our jewelry again, but we didn't care—it made such a corking good story to tell the city folks when we returned after the picture was taken.

Answers to Correspondents

Helen M.—Thank you for the kodak snapshots. They were very interesting and their composition and finish deserve all the praise your friends have given them.

L. M.—If you are going to dye your eyebrows, why don't you try sage tea? It will not affect the roots of the hair.

G. A.—Richard Bennett was George Dupont in "Damaged Goods". Josephine Crowell was the Little Colonel's mother in "Birth of a Nation".

T. B.—By all means, go to a dentist for the trouble with your teeth. It is never safe to try all the remedies that are recommended to you.

R. B. G.—Jane Hall was Adelaide in "Madam Butterfly". I cannot tell you who played the role of the little girl in the picture you refer to.

P. L. H.—I cannot advise you to leave school to act in moving pictures. Do not take such a step without consulting your mother. I have said it many times, but it is always true—mothers know best.

SUGGESTIONS FOR THE JUNE GRADUATE

Organdy, Voile, and Other Cottons Favored For Simple Frock.

NEW YORK, June 2.—Quite as important as the June bride is the June graduate. She must be just as daintily dressed in misty white, and her future is equally as promising.

It is no longer considered the proper thing for the graduate to be elaborately dressed in silk or satin; many of the daintiest frocks are fashioned by the graduate herself, from the sheer voiles, organdies, nets, or from the dainty flouncings of lace or embroidery. The high schools favor the idea of the graduate fashioning her own dress; some go as far as to suggest the material and the cut for the entire class. Perhaps this does not appeal to the average girl, with her ideas of individuality, but the notion of making her own frock should appeal to her, for this very reason, that she may add little distinctive touches which bring out her own personality.

Simplicity in Cut and Material.

Commencement Frock of Voile. The very simplest, most youthful models are chosen for the June graduate. They are usually of organdy, or one of the sheer cottons, very sparingly and simply trimmed. Crepe de Chine or one of the very soft taffetas or satins may also be used, if preferred, but the cottons are more in vogue and daintier.

Net, which is such a general favorite for the typical summer dress, is quite as well liked for the graduation dress and proves extremely practical. White cotton net, combined with taffeta, voile, or organdy fashions the daintiest of graduation frocks; one which may be worn later for summer afternoons, or the dance.

Skirts are short, sleeves range from the short puff, so charmingly in keeping with bouffant skirts of the moment, to the three-quarter or full length sleeve of organdy, net, Georgette or chiffon. Round necks are particularly modish, although the square neck and the V are also liked. If one wishes to be at the height of the mode, the graduation frock must boast a hooped petticoat. These are so softly boned and so unobtrusive that the frock loses none of its simplicity but gains in grace.

Shoes, Gloves and a Fan. White kid pumps and white silk stockings are dainty and carry out the "all white" notion; black patent or kid pumps and black stockings, however, are in quite as good form. White silk gloves, if any gloves are worn, are better than kid, being cooler. A small white fan may be carried, both for use and ornament, for fans are extremely dainty this summer. Feathers are being used in the new fashions. There are small ostrich feather fans and plain rock feather fans in white and colors. The small spangled silk fan is still favored. Any of these make most acceptable gifts for the graduate. Although the plainer the hair is dressed the better, a bit of tulle or a single comb may be worn, and Colonial silver or rhinestone buckles may adorn the pumps. Very little jewelry, if any, is permissible; a small brooch or a tiny lavalliere is quite enough.

Summer Frocks of Organdy. Organdy is one of the most generally favored of materials for the summer frock, whether for graduation, garden parties, or summer dances. It comes in all the delicate pastel colorings now favored and is also patterned with dainty conventionalized designs, on white and colored grounds.

The plain and figured voiles are effective also, and there are many attractive combinations of voile and taffeta, organdy and taffeta, net and organdy and the like.

It is considered most Frenchy to combine organdy and taffeta, or net and taffeta. This is usually done in a frock which has no idea of sending to the laundry, although there are at the moment taffetas and satins which wash very well.

The first frock illustrated here is a jumper model adapted from one of Poiret's designs. It is developed in net and taffeta and is a charmingly simple model for the girl who

wishes to make her own frock for commencement.

Another Dainty Model for Graduates

In the second design is a particularly effective frock of plain and figured voile. The figured material is white with a white mercerized ring. The quaint neck line, puffed sleeves and full skirt, make it a very pleasing and youthful frick, suitable for graduation exercises or summer parties.

The Garden Party Hat.

It will do no harm to tell of a hat or two, which, worn with the graduation frock after that wonderful day will complete a most effective garden party, or summer afternoon costume. There are large hats of organdy in the dainty colorings, just the thing for the organdy frock; large black and colored wenchows, stenciled with some quaintly conceived and colored figure, flower or bird; wide brimmed leghorns, with a flower or two on their drooping brims; and many others, for the large hat is again modish. These stenciled hats offer alluring possibilities to the girl who paints or understands the mixing of colors.

COLUMBUS, O., June 2.—Boys and girls from all over Ohio are in Columbus today to take part in the second annual state spelling "bee," which will be held tonight in the house of representatives in the state house.

Hard words, easy words and all kinds of words will be given to the contestants for the state championship. Cash prizes and sets of books will be awarded to the winners.

All of the children who will take part are the champion spellers of their districts. Only district champions will be permitted to take part in tonight's state contest. They were selected at county spelling "bees." The spellers will be addressed by Governor Frank B. Willis and Francis B. Pearson, state superintendent of public instruction. This afternoon a street car ride about the city has been arranged for them.

Last year's spelling contest assumed the nature of a deadlock, as the state championship was not decided until long after midnight. In tonight's contest 100 words will be pronounced to the contestants to be written correctly; 100 words will be printed phonetically and given the boys and girls to be re-written and correctly spelled, and 100 words, part of them spelled correctly and part incorrectly, will be submitted to be re-written and corrected. Each word will count one-third of one per cent. It has been announced.

Y. M. C. A. GLEE CLUB CONCERT APPLAUDED

Annual Program Wins Appreciative Reception by Audience.

The Y. M. C. A. Glee club, under the direction of Prof. Mark Evans, presented their annual program in Memorial hall last night. Miss Bertha Falk was soloist, appearing with the glee club in the Italian Street Song, by Victor Herbert. The glee club appeared in three separate numbers. They were loudly applauded

FEEL MISERABLE EVERY MORNING?

Clean Your Liver With a Wineglass-Full of Tollo Water. In Half an Hour You Will Feel Fine.

Those dull, gray mornings, when you hate to get up, come from a clogged liver. You can banish them clean out of your life by taking about a t'rd of a tumbler of concentrated Tollo Water in a glass of plain water before breakfast.

When the liver can't expel the bile it is forced back into the stomach and is absorbed into the system and makes you drag around, feeling miserable all the time, especially in the morning. Your tongue becomes covered with a white, furry coat; you think you have stomach trouble, because your food disagrees with you, forming gas and feeling like lead after every meal. In a little while your skin turns yellow and the color fades out of your cheeks.

Don't take drugs or calomel; they will weaken your system and make you worse. Get a 15-cent bottle of Tollo Water from your drug store and take a little every morning for a few days. It will dissolve the bile, really bathe the liver and flush the waste from the system. Keep taking it for a few mornings. You will get back your energy; the natural, rosy color will come back to your cheeks, and you can eat all you like without suffering afterwards.

After you have taken this water regularly for a few days and thoroughly cleaned the liver and bowels, an occasional glass will keep the complexion pink and make you feel good all the time.

and many appreciative exclamation were showered upon Miss Falk. The glee club is composed of about 25 young men.

Miss Falk also appeared in two solo numbers, "Love, I Have Won You" by Ronald and Dunn's "The Bitterness of Love". Miss Edna Faust was accompanist for Miss Falk. When not singing, Miss Falk served as accompanist for the glee club. Other numbers equally as well received were the group of two by Alfred Shumate, named, who sang Osgood's "My Little Woman" and an Irish encore.

R. B. Mikessell and Donald John appeared in a duet, "Watchman, What of the Night" and the Lima male quartette, composed of Mr. Mikessell, B. C. English, Leo Mosier and Alfred Shumate, sang two numbers, "Summer Roses" and "The Rosary", appearing to unusual advantage in the latter.

C. E. Xander, Russell Watkins, Joel Repass and Mr. Foster, impersonating reminiscence figures, presented quartette numbers. The audience was most responsive, but the performers merited the applause bestowed. The glee club and their able director, Prof. Mark Evans, have spent much time in practice for the event. The numbers were among the best ever given at any like concert in Lima.

TO BUILD BRIDGE AT SEVENTH ST. DELPHOS

Allen County Commissioners Agree With Van Wert Board.

Acting on the agreement reached, it was decided to proceed with the Seventh street bridge abutments construction in Delphos, and work will be commenced as soon as possible so that by the time the Fifth street bridge is removed, the abutments at Seventh street will be ready to receive the old bridge, according to James L. Heath, Frank Wright and W. W. Craig, Allen county commissioners, and Surveyor W. R. Toy, who were in Delphos yesterday, where they attended a joint meeting of the commissioners and surveyors of Van Wert county.

While there has been some question as to whether the commissioners could pay for the construction of two abutments for the bridge under the existing laws, both Prosecuting Attorney Barr and the Van Wert prosecutor concurred in the decision that commissioners were not exceeding their authority to do this. New floors will be placed in both the first and second bridges at Delphos, being allowed yesterday. The floor of First street bridge will be of three-inch oak. Two by four-inch crossos planks will be set edgewise to make the second street bridge floor. Work will be completed before snow flies.

TRAVELETTE BY NIKSAN.

GLACIER NATIONAL PARK. The northwestern Rockies are a wilderness unspoiled, and will doubtless always remain so, for their rugged fastnesses, snow-bound eight months of the year offer no permanent foothold for civilization. In Glacier park, the government has set aside one of the most picturesque bits of this primitive wild to be kept just as it was before the white man came. No rifle has been fired in this region for six years. The wild creatures live as free from molestation as in the days before the

coming of man. No timber is cut, and there is no industry of any kind except that of caring for the stream of visitors who pour through the park every summer. There are auto roads and excellent hotels and stores and camps; and yet there are corners of the park that have scarcely been explored, for this is a park of over a thousand square miles.

The scenery of Glacier park is perhaps the most striking in the continent. The Lewis mountains are a mighty range of sharply crumpled rock, broken into gorges thousands of feet deep, and sheer snow-tipped peaks. There are some sixty glaciers among these peaks while more than 250 lakes are tucked away in the canyons and basins. Both lakes and streams are full of trout, and although all other life is protected, fishing is allowed.

This region has been the scene of many of the most interesting chap-

ters in the history of the early west. It was first the hunting ground of the Blackfoot Indians, whose reservation is near the park, and who are still picturesque figures about the camps and hotels. Later copper was discovered in the region, and there followed an era of Indian fighting and outlaws that has no equal for picturesque and bloody incident. After the struggle between white

man and red had been fought out, there arose a powerful band of highwaymen who dominated the region for years, until the Montana vigilantes were organized. They were then hunted out and hung, one by one.

This land of strife and adventure, where strong men fought for existence, is now the playground of nationally attired tourists.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice.—It will be confidential.

INDUSTRIALS MAKE
NEW WALL ST. RISE

NEW YORK, June 2.—Additional records were made during the busy forenoon, Wall Street rising 18 to 23 and Beet Sugar 1-4 to 7-8. Meanwhile Norfolk and Western eclipsed its previous maximum, touching 133, with gains of 1 to 2 points for New York Central, Canadian Pacific, Louisville and Nashville, Chesapeake and Ohio, Southern Railway preferred and some of the minor rails. "Big Four" controlled by New York Central, rose 1-2 points to 59 on rumors of an early resumption of dividends. Reading and Lehigh Valley were under pressure and U. S. Steel was singularly inactive, with further gains in Gulf States Steels. Bonds were firm.

New high records were registered by three widely divergent issues in today's early market. Norfolk and Western rose 1-4 to 130 1-4, Chandler Motors 1 point to 108 7-8 and Gulf States Steel 1-2 to 85 1-2. The movement otherwise was in keeping with these gains. Mercantile Marine being the most active issues. The preferred opened with a block of 1,600 shares at 95 5-8 to 96, an overnight gain of 1-4, soon advancing to 97 on very large transactions with an advance of a point for the common. Beet Sugar, Allis-Chalmers preferred and Rubbers comprised the other strong stocks. Later rails as a whole improved materially.

FOREIGN NEWS PUTS
WHEAT PRICE DOWN

CHICAGO, June 2.—Weakness of quotations in Liverpool had a depressing effect today on the wheat market here. British advices told of heavy arrivals of supplies and predicted that abundant receipts would continue. Opening prices, which ranged from 1-4 @ 3-5c to 5-8 @ 3-4c lower, with July at \$1.05 to \$1.05 1-4 and September at \$1.06 7-8 to 1.07, were followed by further losses and then a moderate upturn.

Corn eased off with wheat. Profit-taking by shorts, however, tended to prevent any radical decline. After opening 1-4 to 3-8 @ 1-2c lower the market underwent an additional sag.

No independence was shown by oats. The downward fluctuations, though, appeared to lack force. Provisions had no aggressive support. Pork especially was weak.

A decided break in wheat prices took place later as a result of reports that a battle in the North sea had resulted in the loss of 8 British warships. The market closed weak, 2 1/2 c to 3 1/2 c net lower with July at \$1.03 1/2 and September at \$1.05 1/2.

News of the North sea battle had but little influence on the corn market. Prices closed steady at 1/2 c to 3/4 c net decline.

The close was: Wheat, July \$1.03 1/2; September \$1.05 1/2. Corn, July 68 1/2; September 68 1/2. Oats, July 39 1/2; September 38 1/2. Pork, July \$20.35; September \$20.55. Lard, July \$12.31; September \$12.42. Ribs, July \$12.10; September \$12.15.

THE SEARCHLIGHT

GOLF PLAYING ON THE ROOF.
A Boston hotel has turned a part of its roof garden into a practice golf course such as are found in golf stores. The canvas back provided is unique in that it not only prevents the balls from going over the roof, but it indicates the sort of a shot made at each stroke. On the right two sections are painted "low slice", "high slice"; on the left, "low pull", "high pull". The center contains the numbers indicating the length of drive which would have resulted from the stroke on the normal. Bunkers two feet high are indicated below. This golf course has been popular with a number of Boston business men since its opening several months ago, and several noted golf players have given demonstrations upon it.

Punjab Forests.
The sand forests of the Punjab are spread over the arid, alluvial plains, where, as a rule, the rainfall does not exceed ten inches. The area covered is 8,500 square miles. It is chiefly remarkable owing to the length of its tap-root, specimens having been found with a tap-root as much as 24 feet in length, descending vertically to a depth of 64 feet. This tap-root enables the tree to obtain its water from the permanent water supply in the subsoil. Doubtless at one time the land lived in a region liable to floods, since it has been found that no natural regeneration occurs in the sand forests, though in irrigated or flooded districts the sand is reproduced readily from seed. It seems probable that the explanation of the long tap-roots is due to the effort on the part of the tree to keep pace with the gradual lowering of the water table of the soil, resulting from the lowering of the river beds by erosion.

Nero and His Temperament.
"It is said that Nero fiddled while Rome burned." Greensboro Watchman. That's the least harmful thing old rip-roaring Nero ever did. Outside of murdering several people, among them his mother, the worst practice he had was to write poetry and make his helpless subjects applaud his reading. Petronius got along better with Nero than some others because he was tactful enough to appreciate the king's verse. However, after Nero turned on Petronius and decided

PROPOSE GREAT NATIONAL PARK AT MT. M'KINLEY

Wide Alaskan Domain to be Set Apart by Act of Congress.

PEAK IS 4 MILES HIGH

Mighty Glaciers Creeping Down Sides of Mountain Slopes.

By Frederic J. Mackin.

WASHINGTON, June 2.—A measure creating in Alaska the Mt. McKinley National park has been favorably reported by the senate committee on territories. It was introduced in the house by Delegate Wickersham of Alaska. As the bill calls for no large appropriations and is favored by the Alaskan representative, it will probably become a law. This means that the great Alaskan peak and the region surrounding it will be placed under government control, the game protected, roads and trails and hotels built, and everything else done to make the place accessible and preserve its primitive character.

Mt. McKinley rises to the height of 20,300 feet above sea-level, is the highest peak in North America, and is accounted by experienced travelers the most striking bit of natural scenery on the continent. Although there are mountains in the world the chests of which are higher above sea-level, there is none that lifts so high above the surrounding terrain. For Mt. McKinley is a huge dome of granite and ice presenting on the southern side 16,000 feet of sheer rise above the gradual slope at its foot. It is flanked on either side by peaks of the Alaskan range rising fifteen to sixteen thousand feet above sea-level, and it draws them into insignificance. Swept by the humid Pacific winds, the southern side of Mt. McKinley

is one of the most terrible and inaccessible wildernesses in the world. Snow sometimes falls to a depth of sixty feet on the level, and the whole mountain side is sheathed in ice and snow all the year around. A number of great glaciers creep down its flanks, and in the summer there are numerous flashing mountain torrents.

From this side the mountain is altogether inaccessible, but its northern slope is protected from the Pacific wind and moisture by the Alaskan range. Although its upper thirteen thousand feet are here, too, covered with snow and ice, the mountain may be ascended its lower slopes range into a beautiful arctic tundra, which is in summer a great lawn starred with wild flowers in remarkable abundance and variety, while the swift streams are lined with forests of spruce and willow. Upon these plains great herds of caribou wheel about the park train of the prospector in guileless curiosity, suggesting in their primitive abundance the bison herds of the early west. Bears of several kinds are also numerous, while sable and fox make the region a rich one for the trapper. On the upper slopes the big-horn or mountain sheep exists in great numbers, the observer having counted five hundred of them in a day.

Although this tundra country on the north side of the mountain is a veritable garden in the summer it is so near the arctic circle that at midnight one can read a newspaper without the aid of artificial light. The setting aside of this wonderful region as a protected park was urged upon congress by representatives of the Boone and Crockett club and the Campfire club of America—two national organizations of big game hunters. These lovers of the wilderness were motivated primarily by the desire to save a bit of the Alaskan wild from the desecration that civilization is sure to bring. They were also able to cite some very practical reasons for the creation of the park, however. The

most important of these was that the new government railroad which is now being built from Seward to the interior of Alaska will pass within twenty miles of the boundary of the proposed reservation. This will bring Mt. McKinley within three weeks of New York by the comfortable means of modern travel. Any tourist will be able to hire a party and a guide at Broad Pass and ride to the foot of this mountain of granite and ice through the flowering tundra country. This would not only add a splendid trip to the itinerary of the American traveler, but it would give the government railroad an assured tourist business from the start. It has been estimated that an automobile road could be built across the tundra to the foot of the mountain at an expense of about \$2000 a mile.

Mr. Belmont Brown of the Camp Fire Club of America also pointed out to the senate committee that the park would be a sort of game reservoir from which the surrounding country would be restocked; and he asserted that the wild game had been an indispensable factor in the opening up of the Alaskan interior. In that country there is no agriculture, and transportation presents tremendous difficulties. But almost everywhere splendid game animals abound. These have been almost the sole support of the hardy prospectors who opened the resources of Alaska to industry. A

provision is to be included in the bill making it possible to issue permits to prospectors to kill what game they need for food.

The prospector knows the value of the game, and does not waste it; but the coming of the railroad is sure to bring a class of men who will kill for the pleasure of killing. This has been the history of every railroad in a new country. The railroad was the doom of bison and elk in the west. It is believed that by the creation of this park Alaskan game, which is one of the country's most valuable assets, may be saved for many generations.

Mr. Charles Sheldon of the Boone and Crockett club, who built a cabin near the foot of Mt. McKinley and lived there for most of a year, asserts that the region will gain fame not only as a summer resort, but also as a very enjoyable place in winter. On the north slope only about four feet of snow falls on the level, and although the thermome-

ter goes very low, the cold is not felt with anything like the severity one would expect. He states that it is not necessary to dress any more warmly than in the Adirondacks at the same time of year.

The park as proposed would be about one hundred miles long by twenty miles wide, and would lie almost wholly on the north slope of the mountain, as the southern side is adequately protected by its own inaccessibility.

Not far from the park boundaries there are some large deposits of antimony and tin, and it is quite possible that the development of these will be made possible by the completion of the railroad and the construction of a highway to the foot of the mountain. Moreover, this great scenic attraction will be the means of bringing many people to the in winter. On the north slope only about four feet of snow falls on the level, and although the thermome-

ter goes very low, the cold is not felt with anything like the severity one would expect. He states that it is not necessary to dress any more warmly than in the Adirondacks at the same time of year.

Every effort should be made to prevent the attacks by giving the child a light supper and plenty of fresh air at all times. The child should be warmly clad when out of doors. Especially the feet should be well protected and under no circumstances should the child be allowed to remain with wet or cold feet. Then watch for the first symptoms, hoarseness, and give Chamberlain's Cough Remedy at once and the attack may be warded off. This remedy is a favorite with the mothers of croupy children and can always be depended upon. It is pleasant and safe to take. Obtainable everywhere.
